

Uniting Bendigo Prayer Points February 2020

February 9

Across the country, Uniting agencies are providing support in many different ways to people who have been affected by the bushfires that have devastated so much of the land. Please pray for those providing this support and for those they are working with. The road to recovery will be long and difficult and all involved will struggle at times to cope with the challenges they must face.

February 16

The extreme heat that we often experience at this time of year is especially difficult for those who are homeless or having to live in temporary or cheap accommodation and have no way of escaping the heat. Please pray for people in this kind of situation and for the support workers who try to address their needs.

February 23

Because we rely heavily on volunteers to carry out the work of all aspects of Uniting Bendigo, we regularly have new volunteers starting and former ones leaving. Please give thanks for all who have committed time and energy to our work and pray that we will continue to be provided with the people resources we need for this ongoing ministry to the community.
